

Onsite Prosci® Workshop: *Delivering Project Results*

The number one contributor to large-scale project success is managing the people side of change. Since 2002, Highlands Consulting has helped our clients follow a structured approach to organizational change management, resulting in faster adoption, higher return on investment, and improved customer service.

Focused on Project Team Results

The half-day program defines change management in a framework familiar to project teams: Objectives, Scope, Work Streams, Milestones, Deliverables, and Timelines. This results-oriented workshop will help participants:

- Understand how change management drives better adoption and usage
- Build a common framework and vision of change management
- Connect employee adoption to their own project's results and outcomes
- Explore ways to integrate change management tasks and responsibilities into the overall project management plan and schedule

Interactive Discussion Style

Participants will contribute to numerous discussions, activities, and break-out sessions regarding real-life changes happening within their organization.

Intended Audience

This workshop is intended for project managers, team members, and solution leads that drive change. Highlands Consulting offers this Prosci workshop at your office location based upon your project team's unique needs and roles.
